## **PRESS RELEASE**

### **Mobile Banking comes to Maldives**

#### **BML launches Mobile Banking App which will make life easier for customers throughout the country**

Bank of Maldives has tonight introduced Mobile Banking to the Maldives with the launch of its new Mobile Banking App. Available for use on Apple and Android smartphones, BML customers will now be able to check their account details and make transfers and payments within a matter of seconds.

All current internet banking customers are automatically registered to use the BML Mobile Banking App and can log in with their existing username and password. Customers not currently registered for internet banking can fill in the simple application form available on the Bank's website and drop this into any branch.

Addressing customers at the ceremony to launch the App which was held tonight at Seahouse Restaurant, BML CEO and Managing Director Andrew Healy said, "We are working hard to make life easier for you, our customers. To make ourselves more accessible as a Bank. Tonight provides further evidence of our commitment to you and to Maldives. With mobile phones so widely used these days, we wanted to fit in with your busy lifestyles by giving you easy access to the Bank at all times. Whether you are relaxing at home, having coffee with friends, or travelling on a dhoni, BML will now be at your fingertips".

The BML Mobile Banking App is available free of charge from the Google Play and Apple App Store.
