PRESS RELEASE

BML inaugurates an additional ATM in Kulhdhuffushi

As part of our efforts to improve customer experience, we are pleased to announce that an additional ATM has been installed in H.Dh Kulhudhuffushi, the most populated island in the north of the country.

The new ATM which is located in the premises of Kulhudhuffushi Regional Hospital was inaugurated today by the Bank's CEO and Managing Director Andrew Healy at a ceremony held in the island.

This ATM offers 24-hour convenient access to banking services to the island community as well as hundreds of visitors to the island. It is located in an area popular among shopping goers and is close to government offices in Kulhudhuffushi making it easily accessible and convenient for all, particularly those travelling to conduct business from neighbouring islands.

Speaking at the ceremony, CEO and Managing Director Andrew Healy stated, "Establishing an additional ATM in Kulhudhuffushi demonstrates our commitment to improve service levels. As part of our broader strategy of financial inclusion, we will be expanding our banking services to more islands in this region before the end of the year."

Bank of Maldives opened its branch in the island on 29th December 1991 while the ATM services began on 20th June 2007.

Currently Bank of Maldives operates the largest ATM network in the country with 53 ATMs installed all over Maldives with presence in 18 atolls.

Recently the Bank has waived off ATM withdrawal fee, inter-bank transfer fee and have announced plans to expand banking services to all inhabited islands.
